Our mission, vision and values

Making the City of Gosnells a great place

We will be a vibrant City with a strong community identity; a great place to live, work, raise children, visit and invest; a place that encourages a range of lifestyles and opportunities; and where the natural environment, cultural diversity and heritage of the City are respected and protected for the enjoyment of current and future generations.

Teamwork, Communication, Innovation, Customer Focus and Integrity are the core values and behaviours that guide the way our employees interact with one another, on every level.

These values and behaviours also inspire our employees' united efforts to strive for excellence in every aspect of our service to the local community.

Organisational structure*

^{*}As existed at start of the financial year in review

Message from the Mayor

As our community began to bounce back from COVID-19 in 2021/22, independent research showed local residents were staying closer to home, shopping locally and using local parks, libraries and facilities more frequently.

The City has worked to create spaces, places and events to encourage this trend, and to support the community economically and socially as it recovers from the pandemic.

After a two-year break due to the pandemic, the Fusion Food and Culture Festival returned in an expanded format across two nights in November, with 30,000 people welcomed. This was a huge success and demonstrated our community's enthusiasm for embracing and celebrating our cultural diversity.

The City supported local economic recovery through a range of infrastructure projects and other measures. One of these projects was construction of the Mills Park Library, which opened in July to provide a modern and vibrant facility, designed with technology in mind. This facility will provide our community with a place to gather and enjoy a range of services and programs for years to come.

The City also provided workshops for women in business delivered in conjunction with Business Station, along with a range of networking opportunities for all local businesses. I was pleased to note the number of businesses registered in the City surged during 2021/22, with over 300 more new businesses registered in 2021/22 compared to 2020/21.

Progress also continued on the City's commitment to build 10 new all-abilities playgrounds. Three more playgrounds were completed including Langford Oval, Harmony Fields and Thornlie Park, offering facilities for families and friends to gather and connect with each other, regardless of ability.

It is once again pleasing to note all these projects and activities occurred in a year when the City kept increases in rates and charges to less than 1 per cent.

I would also like to acknowledge the work of my fellow Councillors throughout the year, and City staff and volunteers for their continued efforts.

Jerresa dynes

Terresa Lynes Mayor

Message from the CEO

The City of Gosnells has enjoyed another productive and successful year, with a focus on sustainability initiatives.

Upgrades to bore pumps and the installation of energy saving LED floodlights have resulted in significant improvements to the way the City irrigates and lights its parks and playing fields, while also saving water and reducing electricity and maintenance costs.

The City also joined a Green Power Partnership, which enables the City to purchase power from renewable sources for 23 of the City's highest energy consuming sites. It is anticipated this will reduce costs for the community and significantly reduce greenhouse gas emissions.

A change to the City's purchasing policy for light vehicles will see a switch to hybrid vehicles from this point forward, with a view to progressing to a fully electric fleet, which will reduce our reliance on fossil fuels.

I would like to thank the Mayor and Councillors for their support and formally acknowledge the work and commitment of City staff and volunteers.

I look forward to continuing our efforts to make the City of Gosnells a great place in the coming financial year.

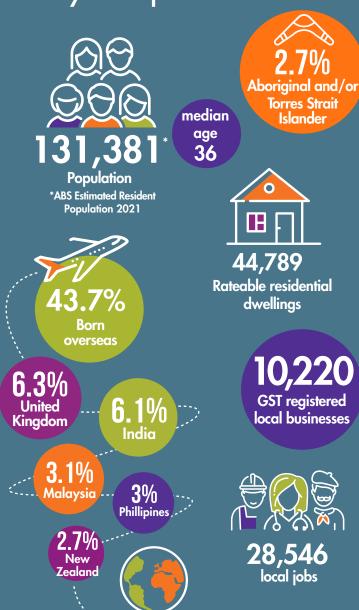

Ian Cowie PSM
Chief Executive Officer

City profile

In 1907, at a time when the region was focused on farming and timber mills, the Gosnells Road Board was formed to serve a population of 737 and manage the construction of new roads to connect with the established communities of Perth and Fremantle.

Almost 115 years later, the City has grown to cover 127km², with 131,381 people living across 11 suburbs in Beckenham, Canning Vale, Gosnells, Huntingdale, Kenwick, Langford, Maddington, Martin, Orange Grove, Southern River and Thornlie. The City continues to develop and maintain roads, however it now provides a vast range of other services including waste management, parks, community engagement activities, programs for specific groups of people, libraries, environmental management and much more.

- 6 July 2021
- 18 October 2021

2020/21 Electors' Meeting (1)

1 February 2022 – Annual Electors' Meeting

Key achievements

The City of Gosnells completed a number of significant projects during the 2021/22 financial year and made substantial progress on a number of long-term initiatives.

Town Planning Scheme No. 6 – Amendment No. 110

Town Planning Scheme No. 6 is the principal statutory planning framework for the City of Gosnells, to allow for the zoning and reservation of land, control land use and provide guidelines and parameters for development.

Amendment No. 110 to the Scheme, approved in May 2022, allows for the provision of common infrastructure works and public open space enhancements within Southern River Precinct 3.

Community Funding Program

The City contributed almost \$100,000 in funding to support over 30 local community groups and organisations to deliver a wide variety of initiatives, events and projects in 2021/22.

Mills Park Library

A new library was developed in the Mills Park Centre, alongside existing facilities including a café, skate plaza, nature play area and function rooms. The vibrant and modern space is focused on technology and gives local people access to public computers, books, study and reading areas as well as community programs.

The \$1 million project included \$540,000 funding from the Department of Infrastructure, Transport, Regional Development, Communications and the Arts through the Local Roads and Community Infrastructure Program.

Migrant Stories

During Harmony Week in March 2022, the City released a series of videos featuring local residents sharing their stories of resettlement in Australia. The videos were produced by the City and funded through an Inclusive Communities Grant from the Department of Social Services.

The City of Gosnells is among the most culturally diverse local government areas in Perth and the videos enable members of the local community who migrated from around the world to share their experiences, first impressions and challenges with migration, and provide advice to new migrants.

Restoring our Rivers Campaign

The Cities of Gosnells, Armadale and Canning and the Town of Victoria Park, as the South East Corridor Councils Alliance, joined the Armadale Gosnells Landcare Group and the South East Regional Centre for Urban Landcare to advocate for significant Federal Government funding for the Canning and Southern Rivers in 2021/22. The Restoring our Rivers Campaign resulted in the newly elected Federal Government committing \$15 million to the restoration works required to rehabilitate the rivers.

The campaign focussed on reducing the environmental impact of urbanisation on the Canning and Southern Rivers and the funding will support the improvement of the river systems by addressing drainage issues, sediment removal and revegetation.

Key achievements

Green Power Partnership

The City of Gosnells is part of a Western Australian initiative to source renewable energy from WA based wind farms through the WA Local Government Association's Power Purchase Agreement.

The agreement resulted in 23 of the City's highest energy consuming sites being powered entirely by renewable energy as of April 2022.

It is expected this will reduce the City's greenhouse gas emissions by 24 per cent.

All-Abilities Playgrounds

Following a commitment from the Council in 2019 to construct a number of new all-abilities playgrounds, three have been completed at Langford Oval, Harmony Fields and Thornlie Park.

Work is also nearing completion on all-abilities playgrounds at Walter Padbury Oval, Mills Park, and Bracadale Park.

Remaining all-abilities playgrounds in Gosnells, Huntingdale and Orange Grove are all planned for construction.

Burslem Drive Duplication

Upgrades to Burslem Drive between Attfield Street and Olga Road, Maddington, are now complete. This includes the construction of one new lane in each direction and a median island. Upgrades to the existing bus stops to conform to the latest standards and enhanced street lighting with LED globes were also completed. This project was a \$3.6 million investment into road safety for Maddington, with the City and the State Government contributing funding.

The upgrade has provided improvements in road safety for all road users, reduced traffic congestion and improved amenity in the area. The project is the first stage of a larger plan to improve Burslem Drive from Albany Highway to the Burslem Drive bridge. Improvement works to the underpass from Maddington Central to the Canning River are in the planning stages and will improve safety of pedestrians using this link.

Spencer Road Duplication

Stage 2 of the Spencer Road Improvement Project has continued this financial year, with work on this \$5 million project nearing completion.

Once finishing touches are complete, the duplication of Spencer Road, Thornlie, including intersection improvements, turning pockets and improved street lighting, will increase safety and ease congestion on one of the City's oldest and busiest roads.

The project has been jointly funded by the City and the State Government.

Upgraded Floodlighting

The City has replaced aged sports floodlighting at Harmony Fields in Maddington, Walter Padbury Park in Thornlie and Gosnells Oval, Gosnells.

The new LED lighting provides cost savings as the lights are cheaper to run, require less maintenance and reduce light spill.

The City received a grant from the Department of Infrastructure, Transport, Regional Development, Communications and the Arts to support this work.

Amherst Village Community Centre Renovations

The City has completed upgrades to the Amherst Village Community Centre, creating much-needed additional space at the Amherst Village Library and The Underground youth space.

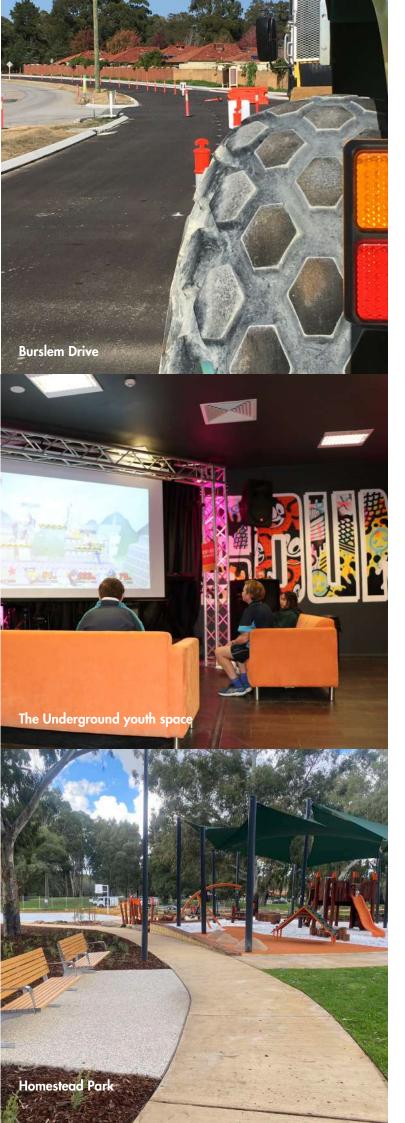

The \$515,603 refurbishment project includes \$215,786 from the Commonwealth Government's Local Roads and Community Infrastructure Funding Program, with the City contributing the remaining \$299,817.

Homestead Park Redevelopment

The project to transform Homestead Park in Thornlie is nearing completion. Homestead Park has significance because it housed the first home in the current suburb of Thornlie, built in the 1830s. Remnants of the homestead and what is thought to be a piggery wall can be seen on site and olive trees planted in 1837 still grow there today.

Once complete, the transformation will include a new playground, picnic shelters and seating, flying fox, bike racks, drinking fountain and a path network.

Revegetation is also occurring along the Canning River.

Future plans

The City has a range of significant projects planned for the coming 12 months.

Sutherlands Park

The Sutherlands Park Master Plan will be finalised in the next financial year. The Master Plan will guide how the City utilises the 30-hectare site for organised sport and casual recreation, and will be the largest investment in sport and recreation in the City's history. The initial steps taken to support the redevelopment of Sutherlands Park include an agreement for the Gosnells Archers to move to a new home at Kelvin Road, Maddington, and a commitment to a new youth plaza. The City has also set aside \$10 million to construct a new leisure and aquatic facility.

The Crescent Principal Shared Path

The City will construct a new section of the Perth to Armadale Principal Shared Path along The Crescent, Maddington. The path will include elevated sections so that no existing mature trees need to be removed. The City has designed the project to deliver the best outcomes for residents and the environment.

Ranford Road

Over the next two financial years, the City will construct new peak period bus lanes along Ranford Road, from Nicholson Road to Warton Road, Canning Vale. The new peak-period lanes will provide buses, taxis and cyclists with a faster route to destinations including the new Ranford Road Train Station.

Warton Road

The duplication of Warton Road between Ranford Road and the Banksia Hill Juvenile Detention Centre will be completed in 2022/23, finalising a major joint project between the City of Gosnells, Main Roads and the City of Armadale. The new lanes will increase capacity on the road to over 16,000 vehicles per day.

Koorlangka Waabiny Park

Upgrades to Koorlangka Waabiny Park in Langford will commence in 2022/23. The new park takes its name from the Noongar term for 'children at play' and will celebrate Aboriginal culture, history and language. It will feature a seat glider, play equipment, basketball hoop, exercise equipment, barbecues, shade shelters and footpaths.

Southern River Business Park

The City is constructing the Southern River Business Park to provide a new high-quality light commercial area for the City. The new estate, bordered by Southern River Road, Matison Street, Duckbill Loop and Furley Road, is set to significantly boost the local economy, and its construction marks the culmination of two decades of land remediation and planning by the City. In addition to providing much-needed land for investors and developers in a prime location, proceeds from the sale of lots will provide an important source of income which will assist the City to keep rates low for local ratepayers.

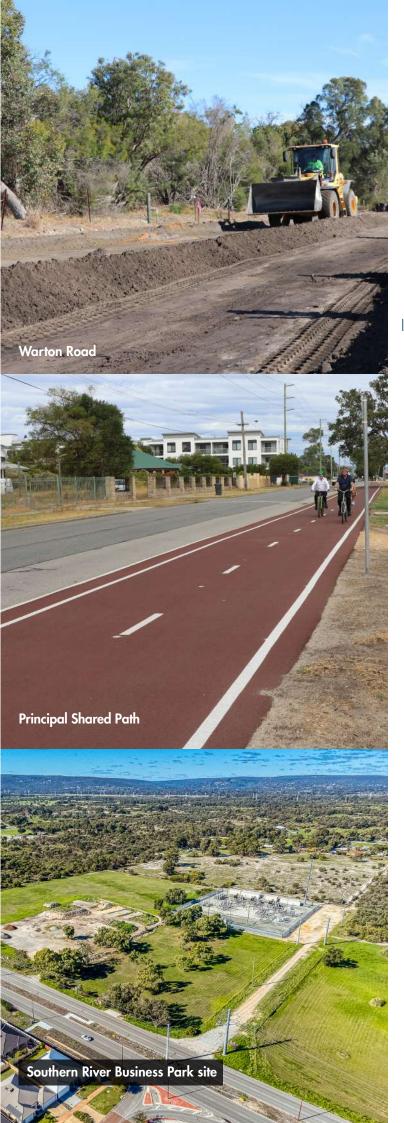

Bracadale Park

Bracadale Park in Canning Vale will be the next location for an enclosed dog park in the City. The dog park is the next stage of an improvement program for this park.

New Station Street Bridge

Following urgent repairs to make Cargeeg Bridge, on Station Street, Gosnells, safe for users, the City received confirmation from Main Roads WA and the Federal Government that funding will be provided for a new dual-lane bridge alongside the existing wooden structure. Once the new bridge is complete, the old bridge will be retained for pedestrian and cycle traffic.

For updates on all these projects, visit gosnells.wa.gov.au.

Access and inclusion

The City has demonstrated a strong commitment to the guiding principles of inclusion and equitable access.

Throughout 2021/22 the City continued to implement the strategies and actions included in its Disability Access and Inclusion Plan 2019 – 2023. This plan outlines the City's approach to ensuring that people with disability have the same opportunities as other people to access City services, facilities, events, information, complaints processes, public consultation and employment.

City events are designed to be accessible for all through the provision of dedicated ACROD parking, wide paths and ramps where required, accessible toilets, trackmatting over cables and clear directional signage.

In 2021/22 the City upgraded Main Street between Albany Highway and Lissiman Street, Gosnells, to improve traffic and pedestrian movements as part of the Gosnells Town Centre revitalisation project. A key component of the project was to construct a raised plateau, enabling safe pedestrian crossing due to the low speed environment created by the works. Verges on both sides were given new paving. The plateau, with median refuge, is wide enough to accommodate pedestrians, wheelchairs and motorised scooters.

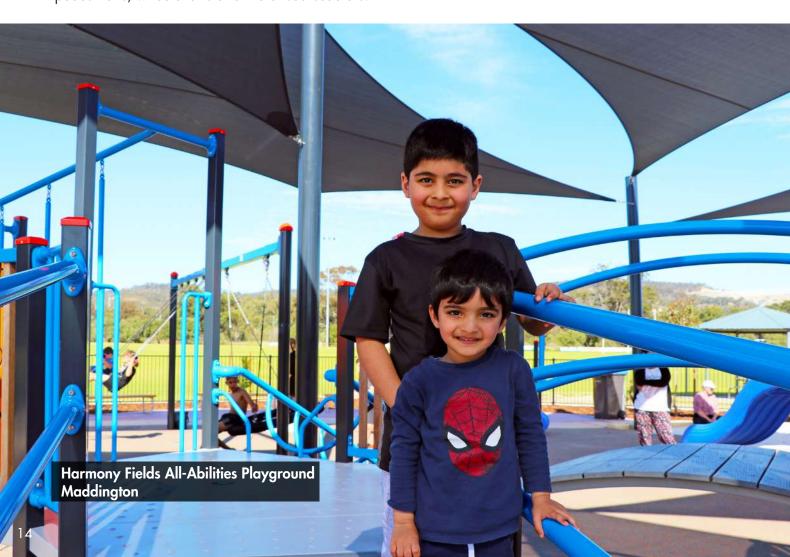

Wide pathways with 'flow stone' filled tree pits were installed to form a seamless, accessible, pedestrian-friendly surface.

Three additional all-abilities playground were completed at Thornlie Park, Harmony Fields and Langford Sporting Complex.

The City remains committed to ensuring that all community members have access to its marketing and information materials. The City's website has ReachDeck which:

- a. Translates all webpages into more than 100 languages, including some options to read aloud
- b. Reads webpages aloud in English
- c. Simplifies webpages
- d. Allows for an increase in the font of websites

In addition, accessible fonts and colour combinations are used in all marketing and communications collateral. Some signage developed for all-abilities playgrounds incorporated Braille characters.

Employee salaries

The City of Gosnells employs 667 people in a diverse range of roles to serve the community. The number of City employees earning an annual salary of \$100,000 or more is set out below, in bands of \$10,000.

1. BASIS OF PREPARATION

The financial report comprises general purpose financial statements which have been prepared in accordance with the *Local Government Act 1995 ("the Act")* and accompanying regulations.

LOCAL GOVERNMENT ACT 1995 REQUIREMENTS

Section 6.4(2) of the Local Government Act 1995 read with the Local Government (Financial Management) Regulations 1996 prescribe that the financial report be prepared in accordance with the Act and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The Local Government (Financial Management) Regulations 1996 specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 Leases which would have required the City to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

JUDGEMENTS AND ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- Estimated fair value of certain financial assets
- Impairment of financial assets
- Estimation of fair values of land and buildings and infrastructure
- Estimation uncertainties made in relation to lease accounting
- Estimated useful life of intangible assets

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the City controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 23 to these financial statements.

Total Rates						72.021.006			71,912,528	70.376.373

2. RATES (continued)

Ex-gratia rates are payments received as contributions towards the City's operational costs from property owners which are otherwise exempt from paying rates.

SIGNIFICANT ACCOUNTING POLICIES

Rates Revenue

Rates revenue is recognised on commencement of the rating period. Prepaid rates are, until the taxable event for the rates has occurred, refundable at the request of the ratepayer. Therefore, rates received in advance are recognised as Income in advance at Note 14.

(b) Specified Area Rates

			2022 Actual	tual				2022 Budget		2021 Actual

				495 459	666 6	498 458	495 480	C	495 480	523 843

Purpose for the rate and proposed application of proceeds:

To recover in each Specified Area up to 22.5% of the park and environmental maintenance cost incurred by the City as they are maintained to a higher standard.

Description of the areas in which rates are applied:

Bletchley Park and surrounds	Housing development generally known as "Bletchley Park"
Brookland Greens and surrounds	Housing development generally known as "Brookland Greens"
Sanctuary Waters and surrounds	Housing development generally known as "Sanctuary Waters"
The Avenues and surrounds	Housing development generally known as "The Avenues"
The Boardwalk and surrounds	Housing development generally known as "The Boardwalk"
The Reserve and surrounds	Housing development generally known as "The Reserve"

(c) Service Charges

The City did not impose any service charges in 2021/22.

3. REVENUE AND EXPENSES

(a) Revenue

Grant Revenue

Grants, subsidies and contributions are included as both operating and non-operating revenues in the Statement of Comprehensive Income:

	2022 Actual \$	2022 Budget \$	2021 Actual \$

SIGNIFICANT ACCOUNTING POLICIES

Grants, subsidies and contributions

The City receives:

- Financial assistance grants;
- Operating grants, subsidies and contributions to deliver various programs and events within the City; and
- Non-operating grants, subsidies and contributions to acquire or construct recognisable non-financial assets to be controlled by the City.

Financial Assistance Grants are recognised when monies are received as the City does not have an obligation to refund the monies.

The City has an obligation to refund monies for operating and non-operating grants, subsidies and contributions. Revenue is recognised over time when the City satisfies its performance obligation under the grant and contribution contract.

Fees and charges

Fees and charges revenue relates to fees from the use of facilities and charges made for local government services, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees.

Revenue is recognised when the services or goods are provided.

Interest earnings

Interest earnings are recognised on an accruals basis taking into account interest rates applicable to the financial assets.

Other revenue

Other revenue relates to sale of minor equipment, discounts and rebates received. Revenue is recognised when the sale of minor equipment occurs or when discounts and rebates are received.

Contract liabilities from contracts with customers	15 _	179,922	145,076
	_	131,762,755	123,508,429

SIGNIFICANT ACCOUNTING POLICIES

Cash and cash equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Restricted financial assets

Restricted financial asset balances are not available for general use by the local government due to externally imposed restrictions. Restrictions are specified in an agreement, contact or legislation. This applies to reserves and unspent grants, subsidies and contributions that have not been fully expended in the manner specified by the contributor and legislation.

5. TRADE AND OTHER RECEIVABLES

	2022	2021
	\$	\$
Current		
Rates receivables	6,881,700	7,472,834

Capital grant receivables	7,816_	15,745
	10,739,501	9,938,455
Non-current		
Pensioner's rates and ESL deferred	1,671,746	1,595,265

SIGNIFICANT ACCOUNTING POLICIES

Rates and sundry receivables

Rates and sundry receivables include amounts due from ratepayers for unpaid rates and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Sundry receivables are recognised at original invoice amount less any allowances for uncollectible amounts (i.e. impairment). The carrying amount of net receivables is equivalent to fair value as it is due for settlement within 30 days.

Accrued revenue

Accrued revenue is recognised when the City has yet to receive payment for goods or services provided. It includes accrued interest income and royalties.

5. TRADE AND OTHER RECEIVABLES (continued)

SIGNIFICANT ACCOUNTING POLICIES

Capital grant receivables

Capital grant receivables are recognised when money has been spent by the City to acquire or construct non-financial assets that are controlled by the City and the City is entitled to, but has not yet received those capital funds from the grantor.

Impairment and risk exposure

Information about the impairment of sundry receivables and their exposure to credit risk and interest rate risk can be found in Note 30.

Classification and subsequent measurement

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

6. INVENTORIES

	2022	2021
	\$	\$
Current		
Fuel and materials	344,357	341,816
Land under development and developed land - cost

Additions to land under development and developed land		9,787	1,422,911
Sale/disposals of inventory	11(b)	(677,349)	(3,515,585)
Transfers between asset classes	_	0	(700,902)
Carrying amount at 30 June	_	1,738,296	2,403,316

6. INVENTORIES (continued)

SIGNIFICANT ACCOUNTING POLICIES

General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land under development and developed land

Land under development and developed land is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Borrowing costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land under development and developed land is classified as current except where it is held as non-current based on the Council's intentions to release for sale.

7. OTHER FINANCIAL ASSETS

	2022 \$	2021 \$
Current	,	•
Financial assets at amortised cost		
- Term deposits	79,000,000	76,507,007
Non-current		
Financial assets at fair value through profit and loss		
- Units in Local Government House Trust	194,509	184,517
- Share in Rivers Regional Council	107,595	100,796
	302,104	285,313

The following movement in Financial assets at fair value through profit and loss occurred during the year:

2022	2021
\$	\$
285,313	391,299
9,992	6,464
6,799	(112,450)
302,104	285,313
	\$ 285,313 9,992 6,799

The equity the City has in the Local Government House Trust ("the Trust") is as a consequence of a contribution towards the cost of purchasing 10 units in the Trust. The total contribution by all Councils towards the cost of the WALGA building was \$582,000. There are 620 units in the Trust.

Changes in fair value of units in the Trust have been recognised based on the audited financial statements of the Trust as at 30 June 2021 as the audited financial statements as at 30 June 2022 were not available at the time of the preparation of the financial report. Changes in the fair value of units in the Trust as at 30 June 2022 are unlikely to be material.

7. OTHER FINANCIAL ASSETS (continued)

The City's investment in Rivers Regional Council (the "Council") represents a 31.19% share in Net Assets of \$344,995. Changes in fair value of the share in Rivers Regional Council have been recognised based on the audited financial statements of the Council as at 30 June 2021 as the audited financial statements as at 30 June 2022 were not available at the time of the preparation of the financial report. Changes in the fair value of units in the Council as at 30 June 2022 are unlikely to be material.

SIGNIFICANT ACCOUNTING POLICIES

Financial assets at amortised cost

The City classifies financial assets at amortised cost if the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cash flows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at fair value through profit and loss

The City classifies the following financial assets at fair value through profit and loss:

- Equity investments which the City has not elected to recognise fair value gains and losses through other comprehensive income.

Impairment and risk exposure

Information regarding impairment and exposure to risk can be found at Note 30.

11. PROPERTY, PLANT AND EQUIPMENT, INFRASTRUCTURE AND INTANGIBLE ASSETS

SIGNIFICANT ACCOUNTING POLICIES

Computer software

Costs associated with maintaining software programmes are recognised as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the City are recognised as intangible assets where the following criteria are met:

- it is technically feasible to complete the software so that it will be available for use;
- management intends to complete the software and use or sell it;
- there is an ability to use or sell the software;
- it can be demonstrated how the software will generate probable future economic benefits;
- adequate technical, financial and other resources to complete the development and to use or sell the software are available; and
- the expenditure attributable to the software during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the software include employee costs and an appropriate portion of relevant overheads.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is ready for use.

Fixed assets

Each class of fixed assets within either plant and equipment or infrastructure, are carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Initial recognition and measurement between mandatory revaluation dates

All assets are initially recognised at cost where the fair value of the asset at date of acquisition is equal to or above \$5,000 in accordance with *Local Government (Financial Management) Regulation 17A (5)*. All assets are subsequently revalued in accordance with the mandatory measurement framework.

11. PROPERTY, PLANT AND EQUIPMENT, INFRASTRUCTURE AND INTANGIBLE ASSETS (continued)

SIGNIFICANT ACCOUNTING POLICIES (continued)

Initial recognition and measurement between mandatory revaluation dates (continued)

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets that are acquired at no cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the City includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets that are land, buildings and infrastructure acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework, are recognised at cost and disclosed as being at fair value as management believes cost approximates fair value. They are subject to subsequent revaluation at the next anniversary date in accordance with the mandatory measurement framework.

Revaluation

In accordance with the regulatory framework the fair value of land, buildings and infrastructure is determined within a period of five years. This includes buildings and infrastructure items where pre-existing improvements exist on vested land acquired by the City. At the end of each period the valuation is reviewed and where appropriate the fair value is updated to reflect current market conditions. This process is considered to be in accordance with *Local Government* (*Financial Management*) *Regulation 17A (2)* which requires land, buildings, infrastructure, and vested improvements to be shown at fair value.

Increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same class of asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss. Subsequent increases are then recognised in profit or loss to the extent they reverse a net revaluation decrease previously recognised in profit or loss for the same class of asset.

AUSTRALIAN ACCOUNTING STANDARDS - INCONSISTENCY

Vested improvements from 1 July 2019

The measurement of vested improvements at fair value in accordance with *Local Government (Financial Management)* Regulation 17A(2)(iv) is a departure from AASB 16 which would have required the City to measure the vested improvements as part of the related right of use (ROU) assets at zero cost.

Refer to Note 13 that details the significant accounting policies applying to leases (including ROU assets).

Land under roads prior to 1 July 2019

As a result of amendments to the *Local Government (Financial Management) Regulations 1996*, effective from 1 July 2019, vested land, including land under roads, is treated as ROU assets measured at zero cost. Therefore, the previous inconsistency with AASB 1051 in respect of non-recognition of land under roads acquired on or after 1 July 2008 has been removed, even though measurement at zero cost means that land under roads is still not included in the statement of financial position.

CHANGES IN ACCOUNTING POLICIES

The IFRS Interpretations Committee (IFRIC) has issued the agenda decision with respect to accounting for Software as a Service (SaaS) arrangements. The agenda decision concluded that SaaS arrangements are likely to be service arrangements, rather than intangible or leased assets. This is because the arrangement typically grants the customer a right to receive future access to the software. The software runs on the supplier's cloud infrastructure and therefore the supplier controls the intellectual property (IP) of the underlying software code.

Management assessed all possible SaaS arrangements against IFRIC criteria and identified one intangible asset meeting the criteria of SaaS arrangements. Due to immateriality, this asset was not written off from the asset register during the financial year.

11. PROPERTY, PLANT AND EQUIPMENT, INFRASTRUCTURE AND INTANGIBLE ASSETS (continued)

(a) Fair Value Measurements

Asset Class	Fair Value Hierarchy	Valuation Technique	Basis of Valuation	Date of last Valuation	Inputs used

^{*} Using current replacement cost

11. PROPERTY, PLANT AND EQUIPMENT, INFRASTRUCTURE AND INTANGIBLE ASSETS (continued)

(a) Fair Value Measurements (continued)

Inputs used		Estimates of remaining useful life, pattern of consumption and asset	obsolescence to assess level of remaining service potential of the depreciable amount.
Date of last Valuation		30 June 2019	30 June 2019
Basis of Valuation		Management	Management
Valuation Technique		Market Approach	Cost Approach*
Fair Value Hierarchy		Level 2	Level 3
Asset Class	Intangibles	Intangibles	

^{*} Using current replacement cost

The timing of valuation(s) complies with the statutory requirement of regulation 17A (4) of the Local Government (Financial Management) Regulations 1996; which requires specific asset classes to be revalued by a specific date. Level 3 inputs are based on assumptions with regards to future values and patterns of consumption utilising current information. If the basis of these assumptions were varied, they have the potential to result in a significantly higher or lower fair value measurement.

During the period there were no changes in the valuation techniques used by the City to determine the fair value of the above asset classes using either level 2 or level 3 inputs.

SIGNIFICANT ACCOUNTING POLICIES

Depreciation and Amortisation

The depreciable amount of all fixed assets including buildings but excluding freehold land and vested land, are depreciated on a straight-line basis over the individual asset component's useful life from the time the asset is held ready for use or depreciated over its remaining useful life once revalued. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

Similarly, intangible assets are amortised on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use.

The assets and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Profits and losses on asset disposals are determined by comparing proceeds with the carrying amount. These profits and losses are included in the statement of comprehensive income in the period in which they arise.

11. PROPERTY, PLANT AND EQUIPMENT, INFRASTRUCTURE AND INTANGIBLE ASSETS (continued)

SIGNIFICANT ACCOUNTING POLICIES (continued)

Depreciation and Amortisation Rates

Major estimated useful lives for each asset class for the current and prior years are:

Asset Class	Years
Bridges - roads	60 to 100
Buildings	5 to 100
Drainage	15 to 100
Furniture and equipment	
Intangible assets	
Other infrastructure	
Park development	
Plant and equipment	2 to 20
Right of use assets	Based on the remaining lease
Roads, Kerbing and Paths	
Subgrade	Infinite
Access roads - pavement	Infinite
Distributor roads - pavement	
Surface	18 to 30
Kerbs	
Paths	
Land	

Depreciation on Revaluation

When an item of property, plant and equipment and infrastructure is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways:

- (i) The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset. For example, the gross carrying amount may be restated by reference to observable market data or it may be restated proportionately to the change in the carrying amount. The accumulated depreciation at the date of the revaluation is adjusted to equal the difference between the gross carrying amount and the carrying amount of the asset after taking into account accumulated impairment losses; or
- (ii) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

12. REVALUATION SURPLUS

Revaluation surpluses have arisen on revaluation of the following classes of Non-Current assets:

	2022	2022	2022	2022	2021	2021	2021	2021

Colour printer copier machines	0.77% - 0.82%	74,058	(26,944)	47,114	(5,661)

13. LEASES (continued)

SIGNIFICANT ACCOUNTING POLICIES

Leases

At inception of a contract, the City assesses if the contract contains, or is, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

All contracts that are classified as short-term leases (i.e. a lease with a remaining term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

Right of use assets and Lease liability

At the commencement date, a right of use (ROU) asset is recognised at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease.

ROU assets are subsequently measured under the cost model and are not revalued. All ROU assets (other than vested improvements) under zero cost concessionary leases (peppercorn leases) are measured at zero cost (i.e. not included in the balance sheet). The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which are reported at fair value. Refer to Note 11 that details the significant accounting policies applying to vested improvements.

ROU assets are depreciated over the lease term or useful life of the underlying asset, whichever is the shortest. Where a lease transfers ownership of the underlying asset, or the cost of the ROU asset reflects that the City anticipates to exercise a purchase option, the specific asset is amortised over the useful life of the underlying asset.

14. TRADE AND OTHER PAYABLES

Income in advance	6,939,222	5,797,488
	17,651,783	15,226,399

SIGNIFICANT ACCOUNTING POLICIES

Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the City prior to the end of the financial year that are unpaid and arise when the City becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liabilities and are normally paid within 14 days of recognition.

Bonds and deposits

Bonds and deposits represent bonds received from customers mainly for planning and infrastructure work applications. The City has an obligation to return the bonds once customers satisfy the regulatory requirements related to the applications.

Income in advance

Income in advance represent liabilities arising from payments received by the City prior to satisfying its obligation to provide goods or render service. Current year income in advance mainly comprises prepaid rates.

15. CONTRACT, GRANT AND CONTRIBUTION LIABILITIES

Carrying amount as at 30 June 2022	3,940,137	23,948,051

SIGNIFICANT ACCOUNTING POLICIES

Contract liabilities

Contract liabilities represent the City's obligation to transfer goods or services to customers for which the City has received consideration from customers.

Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

Capital grant liabilities

Capital grant liabilities are recognised for transfers received to acquire or construct non-financial assets that are to be controlled by the City where the City has yet to perform the obligations under the transfers.

Capital grant liabilities are recognised as revenue when the obligations under the transfers are performed.

Developer Contribution Plan liability

The City receives contributions from landowners as required under developer contribution arrangements. In accordance with State Planning Policy 3.6 "Infrastructure Contributions", the contributions are recognised in the City's cash-backed reserves (refer to Note 18). Developer contribution plan liabilities represent the unspent contributions from the developer contribution plan relating to construction and/or acquisition of assets that will be controlled by the City.

Developer Contributions are recognised as revenue when the performance obligations in the arrangement are satisfied, i.e. when the arrangement reimburses the City or developer for the construction and/or acquisition of assets.

^{*} The City does not have an overdraft facility during the financial year.

SIGNIFICANT ACCOUNTING POLICIES

Financial liabilities

Financial liabilities are recognised at fair value when the City becomes a party to the contractual provisions to the instrument.

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of the consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

Borrowing costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Risk exposure

Information regarding exposure to risk can be found at Note 30.

^{**} Funds only available for the purposes detailed in Note 16(b).

Non-current provisions	4,432,271	548,067	113,868	173,569	57,284	301,293	661,935

17. EMPLOYEE RELATED PROVISIONS (continued)

Annual leave liabilities

Classified as current as there is no unconditional right to defer settlement for at least 12 months after the end of the reporting period. Assessments indicate that actual settlement of the liabilities is expected to occur as follows:

	2022 \$	2021 \$
Within 12 months of the end of the reporting period	2,739,834	2,758,152
More than 12 months after the end of the reporting period	1,692,437	1,635,264
	4,432,271	4,393,416

Long service leave liabilities

Unconditional long service leave provisions are classified as current liabilities as the City does not have an unconditional right to defer settlement of the liability until the employee has completed requisite years of service. Assessments indicate that actual settlement of the liabilities is expected to occur as follows:

	2022 \$	2021 \$
Within 12 months of the end of the reporting period	4,277,810	4,055,412
More than 12 months after the end of the reporting period	1,376,694	1,545,140
	5,654,504	5,600,552

The provision for long service leave is calculated at the present value as the City does not expect to wholly settle the amounts within 12 months. The present value is measured taking into account the present value of expected future payments to be made in relation to services provided by employees up to the reporting date. These payments are estimated using the remuneration rate expected to apply at the time of settlement, and discounted using market yields at the end of the reporting period on government bonds with terms to maturity that match, as closely as possible, the estimated future cash outflows.

Employment On-Cost Provision

The settlement of annual leave and long service leave liabilities give rise to the payment of employment on-costs including workers' compensation insurance. The provision is the present value of expected future payments.

Employment on-costs, including workers' compensation insurance, are not employee benefits and are recognised separately as liabilities and expense when the employment to which they relate has occurred. Employment on-costs are included as part of 'Employee Costs' in the Statement of Comprehensive Income. The related liability is included in 'Employment On-Costs' provision.

	2022	2021
	\$	\$
Carrying amount at beginning of period	1,349,425	978,126
Additional (reversal of) provisions recognised	276,580	371,299
	1,626,005	1,349,425

17. EMPLOYEE RELATED PROVISIONS (continued)

Deferred Salaries

Classified as current as there is no unconditional right to defer settlement for at least 12 months after the end of the reporting period. Assessments indicate that actual settlement of the liabilities is expected to occur as follows:

	2022	2021
	\$	\$
Within 12 months of the end of the reporting period	78,848	67,431
More than 12 months after the end of the reporting period	94,721	113,879
	173,569	181,310

Accrued Rostered Day Off (RDO)

Classified as current as there is no unconditional right to defer settlement for at least 12 months after the end of the reporting period. Assessments indicate that actual settlement of the liabilities is expected to occur within 12 months of the end of the reporting period.

Time Off in Lieu (TOIL)

Classified as current as there is no unconditional right to defer settlement for at least 12 months after the end of the reporting period. Assessments indicate that actual settlement of the liabilities is expected to occur within 12 months of the end of the reporting period.

Employee numbers

The number of full-time equivalent employees as at:

30 June 2021 451 30 June 2022 469

SIGNIFICANT ACCOUNTING POLICIES

Employee benefits

Short-term employee benefits

Provision is made for the City's obligations for short-term employee benefits. Short-term employee benefits (other than termination benefits) are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries, sick leave, accrued RDO and TOIL. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The City's obligations for short-term employee benefits such as wages, salaries, and sick leave are recognised as a part of current trade and other payables in the statement of financial position.

Other long-term employee benefits

The City's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurement for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The City's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the City does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

17. EMPLOYEE RELATED PROVISIONS (continued)

SIGNIFICANT ACCOUNTING POLICIES

Provisions

Provisions are recognised when the City has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Incentives

Five prizes of \$1,000 each, funded by the City of Gosnells, were drawn on a random basis as an incentive for ratepayers to pay their rates in full by the due date.

Westpac Banking Corporation also provided two savings accounts totalling \$3,500.

Inclusion in the draw was automatic for all ratepayers who paid their rates in full by the advertised due date of the first instalment. Winners were notified.

Waivers

Council has granted specific waivers to community based organisations and ratepayers as follows:

	2022 \$	2021 \$
Foothills Estate Syndicate Pty Ltd.	1,980	1,960
Gosnells Junior Football Club Inc.	1,079	2,297

Rates Instalment Options

The following payment options were offered for the payment of rates notices:

	Due by
Payment in full	27 August 2021
Payment by four instalments	
First instalment	27 August 2021
Second instalment	5 November 2021
Third instalment	14 January 2022
Fourth instalment	18 March 2022
Direct debit payment arrangement	by individual arrangement (Bank Account only)

Description of Payment Arrangement and Interest Charges

Four Instalment Payment Plan

The four instalment payment plan incurred an administration fee (excluding registered Pensioners/Seniors with 100% equity) to recover the additional cost to the City to administer this plan. The four instalment plan attracted interest calculated on all rates and service charges on a daily basis. Arrears were included and payable in the first instalment.

Late Payment Interest

Late payment interest was imposed on all rates related fees and charges (current and arrears) including but not limited to general rates, specified area rates, refuse charges and swimming pool inspection fees (excluding registered Pensioners/Seniors with 100% equity). Interest was charged on a daily basis on all arrears and current amounts that remain unpaid 35 days from the date of issue of the original rate notice.

Direct Debit Plan

Weekly, fortnightly or four weekly payment arrangements were offered by way of Direct Debit (bank account only). An administration fee was charged (excluding registered Pensioners/Seniors with 100% equity) on each payment arrangement.

(b) Key Management Personnel (KMP) Compensation Disclosure

The total of remuneration of KMP of the City during the year are as follows:

	2022	2021
	\$	\$
Short-term employee benefits	1,391,924	1,276,448
Post-employment benefits	136,934	127,560
Other long-term employee benefits	134,747	132,516
Council member costs	573,688	546,518
	2,237,293	2,083,042

Short-term employee benefits

These amounts include all salary, paid leave and fringe benefits awarded to KMP except for details in respect to fees and benefits paid to elected members which may be found at Note 27(a).

Post-term employee benefits

These amounts are the current year's estimated cost of providing for the KMP's superannuation contributions made during the year.

Other long-term employee benefits

These amounts represent long service benefits accrued during the year.

Council member costs

These amounts represent payments of member fees, expenses, allowances and reimbursements during the year.

Any person(s) having authority and responsibility for planning, directing and controlling the activities of the City, directly or indirectly, including any elected member, are considered key management personnel.

(c) Related parties

The City's main related parties are the Key Management Personnel. Any person(s) having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any council member, are considered Key Management Personnel. There are no other related parties or entities subject to significant influence by the City.

(d) Transactions with related parties

There were no transactions with related parties that have occurred during the year.

28. MAJOR LAND TRANSACTIONS

(a) Robinson Park Subdivision and Park Development

i. Details

The City completed the construction works to revitalise Robinson Park (the Park). The revitalisation included a substantial park enhancement and a 42 lot residential subdivision around the perimeter of the park.

In March 2017 the City advertised the Robinson Park revitalisation project, as part of a Major Land Transaction process as defined through the Local Government Act 1995 section 3.59 – *Commercial Enterprises by Local Governments*. No submissions were received through this process.

Redevelopment of Robinson Park began in January 2020 and was completed in September 2020. The new Park was opened to the public and residential land sales commenced shortly afterwards. The City has sold 39 lots as at 30 June 2022.

iv. Assets and Liabilities

Assets associated with this land transaction have a written down value of \$1,589,324 as at 30 June 2022. It is anticipated assets related to the land transactions will be disposed by 30 June 2023.

The City has fully drawn down its \$5,600,000 short term loan facility established during the financial year ending 30 June 2022. The loan will be repaid from Robinson Park sale proceeds by 31 December 2022.

(b) Southern River Business Park

i. Details

The proposed Southern River Business Park consists of Lot 21 Furley Rd, Lots 100 & Lot 1768 Southern River Rd and Lot 1767 Matison St, which are owned fee simple by the City.

In April 2021, the City awarded a tender to JDSI Consulting Engineers to provide a range of professional services in relation to the design and construction of Southern River Business Park.

The design development and planning phases are almost complete, with the tender for Stage 1 to be advertised in November 2022. It is anticipated that the tender will be awarded by March 2023. Subdivision construction is proposed to occur in 4 stages.

As this is a major land transaction, the construction of stages 2, 3, and 4 are dependent upon sale of stage 1 lots and future market conditions.

iv. Assets and Liabilities

Assets associated with this land transaction have a written down value of \$22,092,223 as at 30 June 2022.

There were no liabilities that exist in relation to this land transaction as at 30 June 2022.

It is anticipated that a \$3,000,000 short-term loan be established during the 2022/23 financial year. The loan is anticipated to be repaid from the Southern River Business Park sale proceeds.

29. TRADING UNDERTAKINGS AND MAJOR TRADING UNDERTAKINGS

The City did not participate in any trading undertakings or major trading undertakings during the 2021-22 financial year.

30. FINANCIAL RISK MANAGEMENT

This note explains the City's exposure to financial risks and how these risks could affect the City's future financial performance.

Risk	Exposure arising from	Measurement	Management
Market risk – interest rates	Long term borrowings at variable rates	Sensitivity analysis	Utilise fixed interest borrowings
Credit risk	Cash and cash equivalents, trade receivables, financial assets and debt investments	Aging analysis Credit analysis	Diversification of bank deposits, credit limits, investment policy
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities

The City does not engage in transactions expressed in foreign currencies other than low value purchases on corporate credit cards and is therefore not subject to foreign currency risk.

Financial risk management is carried out by Financial Services in accordance with policies approved by Council.

The City held the following financial instruments at balance date:

	Carrying Value		Fair V	'alue
	2022	2021	2022	2021
	\$	\$	\$	\$
Financial assets				
Cash and cash equivalents	74,604,382	71,812,788	74,604,382	71,812,788
Financial assets at amortised cost				
- Term deposits	79,000,000	76,507,007	79,000,000	76,507,007
- Receivables	12,411,247	11,533,720	12,411,247	11,533,720
Financial assets at fair value	000.404	005.040	000 101	005.040
through profit or loss	302,104	285,313	302,104	285,313
	166,317,733	160,138,828	166,317,733	160,138,828
Financial liabilities at amortised cost				
Payables	10,712,561	9,428,911	10,712,561	9,428,911
Lease liability	17,607	47,114	17,607	47,114
Borrowings	15,273,661	17,731,583	9,004,608	10,492,019
	26,003,829	27,207,608	19,734,776	19,968,044

Fair value is determined as follows:

- Cash and cash equivalents, term deposits, receivables, payables estimated to the carrying value which approximates net market value.
- Borrowings, held to maturity investments, estimated future cash flows discounted by the current market interest rates applicable to assets and liabilities with similar risk profiles.

30. FINANCIAL RISK MANAGEMENT (continued)

(a) Interest rate risk

The City's main interest rate risk arises from cash and cash equivalents with variable interest rates, which exposes the City to cash flow interest rate risk. The City does not have an overdraft facility.

Excess cash and cash equivalents are invested in fixed interest rate term deposits which do not expose the City to cash flow interest rate risk. Cash and cash equivalents required for working capital are held in variable interest rate accounts. Carrying amounts of cash and cash equivalents at 30 June and the weighted average interest rate across all cash and cash equivalents and term deposits held and disclosed as financial assets at amortised cost are reflected in the table below.

	Weighted Average Interest	Carrying Amount	Fixed Interest Rate	Variable Interest Rate	Non Interest Bearing
	Rate	\$	\$	\$	\$
Year ended 30 June 2022					
Cash and cash equivalents Financial assets at amortised	1.06%	74,604,382	0	74,595,847	8,535
cost – Term deposits	0.99%	79,000,000	79,000,000	0	0
		153,604,382	79,000,000	74,595,847	8,535
Year ended 30 June 2021					
Cash and cash equivalents Financial assets at amortised	0.43%	71,812,788	0	71,804,004	8,785
cost – Term deposits	0.59%	76,507,007	76,507,007	0	0
		148,319,795	76,507,007	71,804,004	8,785

Profit or loss is sensitive to interest income from cash and cash equivalents as a result of changes in interest rates.

	2022	2021	
	\$	\$	
Impact of a 1%* movement in interest rates on cash and term deposits			
- Equity	1,793,986	1,672,935	
- Statement of Comprehensive Income	1,793,986	1,672,935	

^{*} Sensitivity percentages based on management's expectation of future possible market movements.

(b) Credit risk

The City's major receivables comprise rates and annual charges and user charges and fees. The major risk associated with these receivables is credit risk – the risk that the debts may not be repaid. The City manages this risk by monitoring outstanding debt and employing debt recovery processes. It also encourages ratepayers to pay rates by the due date through incentives.

Credit risk on rates and annual charges is minimised by the ability of the City to recover these debts as a secured charge over the land – that is, the land can be sold to recover the debt. The City is also able to charge interest on overdue rates and annual charges at higher than market rates, which further encourages payment.

The level of outstanding receivables is reported to Council monthly and benchmarks are set and monitored for acceptable collection performance. The City makes suitable provision for doubtful receivables as required and carries out credit checks on most non-rate debtors.

The City applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

30. FINANCIAL RISK MANAGEMENT (continued)

(b) Credit risk (continued)

The expected loss rates are based on the payment profiles of rates and fees and charges over a period of 36 months before 1 July 2021 or 1 July 2022 respectively and the corresponding historical losses experienced within this period. Historical credit loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors such as the ability of ratepayers and residents to settle the receivables.

The loss allowance as at 30 June 2022 and 30 June 2021 was determined as follows for rates receivable. No expected credit loss was forecast on 30 June 2022 or 30 June 2021 for rates receivable as penalty interest applies to unpaid rates and properties associated with unpaid rates may be disposed of to recover unpaid rates.

	Current	More than 1 year past due	More than 2 years past due	More than 3 years past due	Total
	\$	\$	\$	\$	\$
Rates Receivable*					
30 June 2022					
Expected credit loss	0.00%	0.00%	0.00%	0.00%	
Gross carrying amount	6,132,088	815,478	589,306	1,016,574	8,553,446
Loss allowance	0	0	0	0	0
30 June 2021					
Expected credit loss	0.00%	0.00%	0.00%	0.00%	
Gross carrying amount	6,546,246	850,352	523,133	1,148,368	9,068,099
Loss allowance	0	0	0	0	0

^{*}The amount of rates receivable include Pensioner's rates and ESL deferred receivables.

The loss allowance as at 30 June 2022 and 30 June 2021 was determined as follows for sundry receivables.

	Current \$	More than 30 days past due \$	More than 60 days past due \$	More than 90 days past due \$	Total \$
Sundry Receivables**					
30 June 2022					
Expected credit loss	0.03%	0.99%	8.37%	0.53%	
Gross carrying amount	871,729	1,319	1,756	1,774,364	2,649,169
Loss allowance	229	13	147	9,425	9,814
30 June 2021					
Expected credit loss	0.08%	0.00%	2.31%	12.93%	
Gross carrying amount	304,283	879,559	6,363	72,895	1,262,100
Loss allowance	229	13	147	9,425	9,814

^{**}The amount of sundry receivables excludes the GST recoverable from the ATO (statutory receivable).

30. FINANCIAL RISK MANAGEMENT (continued)

(c) Liquidity risk

Payables and borrowings are both subject to liquidity risk – that is the risk that insufficient funds may be on hand to meet payment obligations as and when they fall due. The City manages this risk by monitoring its cash flow requirements and liquidity levels and maintaining an adequate cash buffer.

The contractual undiscounted cash flows of the City's Payables and Borrowings are set out in the Liquidity Sensitivity Table below:

	Due within 1 year \$	Due between 1 & 5 years \$	Due after 5 years \$	Total contractual cash flows \$	Carrying values \$
2022					
Payables	10,712,561	0	0	10,712,561	10,712,561
Borrowings	8,295,817	4,326,850	3,245,138	15,867,805	15,273,661
	19,008,378	4,326,850	3,245,138	26,580,366	25,986,222
2021					
Payables	9,428,911	0	0	9,428,911	9,428,911
Borrowings	2,710,295	11,540,954	4,326,850	18,578,099	17,731,583
	12,139,206	11,540,954	4,326,850	28,007,010	27,160,494

Borrowings are also subject to interest rate risk - the risk that movements in interest rates could adversely affect funding costs. The City manages this risk by borrowing long term and fixing the interest rate to the situation considered the most advantageous at the time of negotiation.

31. EVENTS AFTER THE REPORTING PERIOD

There has not been any matter or circumstance occurring subsequent to the end of the financial year that has significantly affected, or may significantly affect, the operations of the City, the results of those operations, or the state of affairs of the City in future financial years.

32. OTHER SIGNIFICANT ACCOUNTING POLICIES

Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

Other current assets

Prepayments represent payments in advance of receipt of goods or services.

32. OTHER SIGNIFICANT ACCOUNTING POLICIES (continued)

Current and non-current classification

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the City's operational cycle. In the case of liabilities where the City does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the City's intentions to release for sale.

Rounding off figures

All figures shown in this annual financial report, other than a rate in the dollar, are rounded to the nearest dollar. Amounts are presented in Australian Dollars.

Comparative figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

When the City applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statements that has a material effect on the statement of financial position, an additional (third) statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements is presented.

Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in this annual financial report relate to the original budget estimate for the relevant item of disclosure.

Superannuation

The City contributes to a number of Superannuation Funds on behalf of employees. All funds to which the City contributes are defined contribution plans.

Fair value of assets and liabilities

Fair value is the price that the City would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

32. OTHER SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair value hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The City selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the City are consistent with one or more of the following valuation approaches:

Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of the service capacity of an asset.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the City gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

32. OTHER SIGNIFICANT ACCOUNTING POLICIES (continued)

Impairment of assets

In accordance with Australian Accounting Standards the City's cash generating non-specialised assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (e.g. AASB 116) whereby any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

For non-cash generating specialised assets that are measured under the revaluation model, such as roads, drains, public buildings and the like, no annual assessment of impairment is required. Rather AASB 116.31 applies and revaluations need only be made with sufficient regularity to ensure the carrying value does not differ materially from that which would be determined using fair value at the end of the reporting period.

33. FUNCTIONS AND ACTIVITY

KEY TERMS AND DEFINITIONS - REPORTING PROGRAMS

City operations as disclosed in this financial report encompass the following service orientated functions and activities.

ACTIVITIES

OBJECTIVE

General Purpose Funding

activities.

To collect revenue to finance Council Revenue from rates including differential rates and interim rates, interest and fees on instalment arrangements and interest on arrears. Amounts receivable from the Western Australian Local Government Grants Commission for untied grants such as the Financial Assistance Grants. Interest revenue received on municipal and reserve investments is allocated to this program.

Governance

the efficient allocation of scarce resources.

To provide a decision-making process for The administration and operation of facilities and services to the Elected Members of Council. This program also includes other costs that relate to Elected Members and ratepayers which are not covered under other programs such as citizenship ceremonies, civic receptions and elections.

Law, Order and Public Safety

community.

To provide services to ensure a safer Administration and operation of funds received from the Department of Fire and Emergency Services for the Gosnells Bush Fire Brigade and State Emergency Service. Provision of community safety programs and Ranger services including registering and impounding of cats and dogs. Revenue allocated to this program includes cat and dog registrations, infringements and prosecutions.

Health

good community health.

To provide an operational framework for Administration, inspection and operation of programs concerned with the general health of the community. Revenues and expenses relating to regulation and monitoring of food premises including food sample analysis and noise complaints.

33. FUNCTIONS AND ACTIVITY (continued)

KEY TERMS AND DEFINITIONS – REPORTING PROGRAMS (CONTINUED)

OBJECTIVE ACTIVITIES

Education and Welfare

the community.

To assist in meeting the education needs of Administration, support and operation of services for youth and families, seniors and persons with a disability. Operation of Addie Mills Centre. Provision of Community Development programs and events such as NAIDOC Week and Harmony Week.

Community Amenities

community.

To provide services required by the Administration and operation of the refuse collection and disposal services. Provision of programs for the management and protection of the environment including the Switch Your Thinking program. The administration of town planning schemes, planning applications and associated land issues. This program also includes administration and operations relating to bus shelters, the Kenwick Cemetery and graffiti management.

Recreation and Culture

well-being of the community.

To establish and manage facilities for the Administration and operation of the Civic Centre, community halls, recreation centres, parks, sporting facilities, Leisure World, Don Russell Performing Arts Centre. Libraries and Wilkinson Homestead Museum. Provision of heritage and community programs and events, Arts and Culture programs, Sponsorship and Funding programs.

Transport

To provide effective infrastructure to the community in the most efficient way.

Administration, maintenance and construction of roads, drainage, footpaths, bridges, including road verges, streetscapes, crossovers, road signs, street trees, street signage and street lighting. This program also includes the City's car parking facilities and road plant purchases.

Economic Services

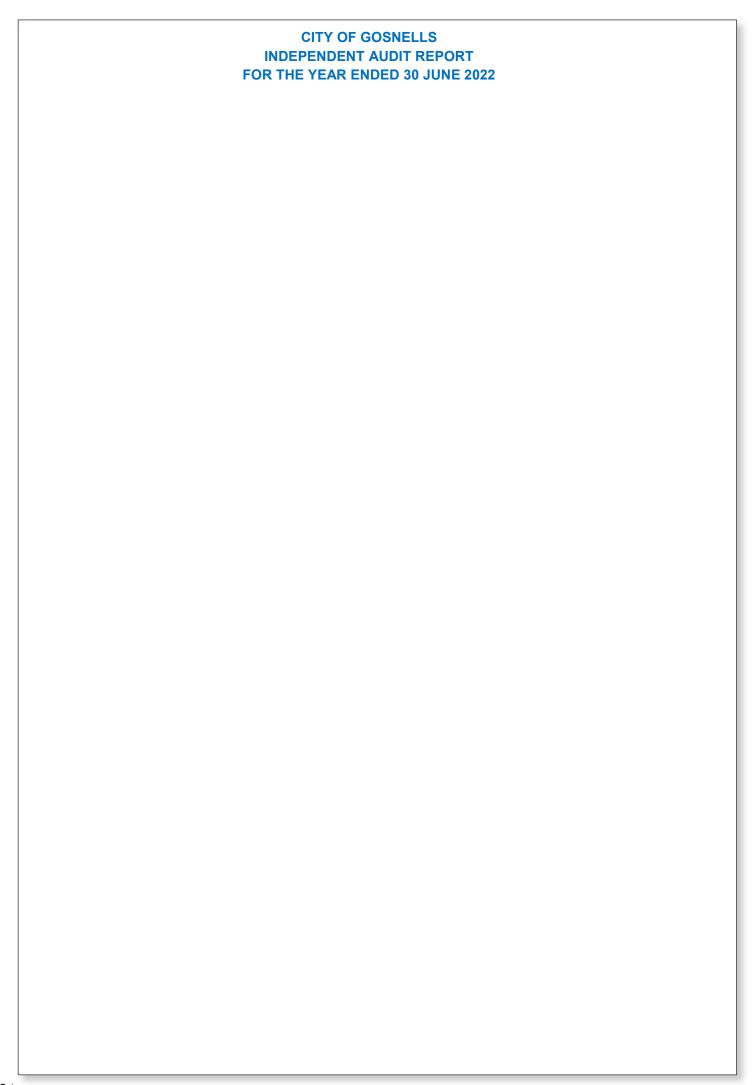

economic base.

To promote the City and improve its The development, promotion, support and research of economic development issues with the community and progression of urban development projects. Provision of building control and swimming pool inspection services. Revenue allocated to this program includes royalties from the Boral quarry and telephone tower leases.

Other Property and Services

community.

To provide services required by the Private works carried out on property or services not under the care, control and management of the City. Works also include reinstatement work on the City's infrastructure as a result of damage from development. Plant operations, administration and public works overheads are allocated to the above programs. This program also includes any unclassified activities such as sale of land for the City's land subdivision projects and miscellaneous reserve transfers.

INDEPENDENT AUDITOR'S REPORT 2022 City of Gosnells

To the Councillors of the City of Gosnells

Opinion

I have audited the financial report of the City of Gosnells (City) which comprises:

- the Statement of Financial Position at 30 June 2022, the Statement of Comprehensive Income by Nature or Type, Statement of Changes in Equity, and Statement of Cash Flows and Rate Setting Statement for the year then ended
- Notes comprising a summary of significant accounting policies and other explanatory information.

In my opinion, the financial report is:

- · based on proper accounts and records
- presents fairly, in all material respects, the results of the operations of the City for the year ended 30 June 2022 and its financial position at the end of that period
- in accordance with the *Local Government Act 1995* (the Act) and, to the extent that they are not inconsistent with the Act, Australian Accounting Standards.

Basis for opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial report section below.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other information

The Chief Executive Officer (CEO) is responsible for the preparation and the Council for overseeing the other information. The other information is the information in the entity's annual report for the year ended 30 June 2022, but not the financial report and my auditor's report.

My opinion on the financial report does not cover the other information and, accordingly, I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial report, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I did not receive the other information prior to the date of this auditor's report. When I do receive it, I will read it and if I conclude that there is a material misstatement in this information, I am required to communicate the matter to the CEO

and Council and request them to correct the misstated information. If the misstated information is not corrected, I may need to retract this auditor's report and re-issue an amended report.

Responsibilities of the Chief Executive Officer and Council for the financial report

The Chief Executive Officer of the City is responsible for:

- preparation and fair presentation of the financial report in accordance with the requirements of the Act, the Regulations and Australian Accounting Standards
- managing internal control as required by the CEO to ensure the financial report is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the CEO is responsible for:

- assessing the City's ability to continue as a going concern
- disclosing, as applicable, matters related to going concern
- using the going concern basis of accounting unless the State Government has made decisions affecting the continued existence of the City.

The Council is responsible for overseeing the City's financial reporting process.

Auditor's responsibilities for the audit of the financial report

As required by the *Auditor General Act 2006*, my responsibility is to express an opinion on the financial report. The objectives of my audit are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

A further description of my responsibilities for the audit of the financial report is located on the Auditing and Assurance Standards Board website. This description forms part of my auditor's report and can be found at https://www.auasb.gov.au/auditors responsibilities/ar4.pdf.

My independence and quality control relating to the report on the financial report

I have complied with the independence requirements of the *Auditor General Act 2006* and the relevant ethical requirements relating to assurance engagements. In accordance with ASQC 1 *Quality Control for Firms that Perform Audits and Reviews of Financial Reports and Other Financial Information, and Other Assurance Engagements*, the Office of the Auditor General maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Matters relating to the electronic publication of the audited financial report

This auditor's report relates to the financial report of the City of Gosnells for the year ended 30 June 2022 included in the annual report on the City's website. The City's management is responsible for the integrity of the City's website. This audit does not provide assurance on the integrity of the City's website. The auditor's report refers only to the financial report. It does not provide an opinion on any other information which may have been hyperlinked to/from the annual report. If users of the financial report are concerned with the inherent risks arising from publication on a website, they are advised to contact the City to confirm the information contained in the website version.

Caroline Spencer

Auditor General for Western Australia

Perth, Western Australia

17 November 2022

City of Gosnells
PO Box 662
Gosnells WA 6990
9397 3000
