

Conditions for Use of Parks for Private Works

Please Note:

Whilst a formal booking can be made for a specific park or reserve, it does not give the hirer sole usage of the location as the park or reserve remains available to the public at all times.

1. Important

All works require the area to be fenced off to ensure public safety.

2. Definitions

Applicant shall mean the party having authority to undertake works.

City shall mean the City of Gosnells.

3. Timing of Applications for Approval

An application must be submitted to the City for access to park or reserve at least 10 working days before works are scheduled to commence.

4. Public Utility Services

The applicant shall be responsible for identifying the location and protection of existing public utility services within the park or reserve and for the performance of the work and repair of any damage, to the requirements laid down by the owner of the public utility service. The applicant shall also be responsible for the reinstatement of all services as shown in the current edition of the Utility Providers code of Practice.

5. Insurance

Whenever requested by the City, prior to the commencement of private works in a park or reserve the applicant shall produce evidence to the satisfaction of the City of the insurance effected and maintained.

6. Bond

A refundable bond (to cover potential damage) is required for all temporary access of structures and equipment on Council parks and reserves. Bonds will be refunded via cheque within fifteen (15) working days after completion of works, dependent upon any damages.

7. Site Inspection

The City of Gosnells will undertake a site inspection prior to works commencing and take dilapidation photographs. These photos will be used to assist in ascertaining if any damage has been incurred during works and may affect the amount of bond returned to the applicant.
